

Leave your ego at the door; it's time for another clinic with Craig Stevens!

In our first clinic Craig had introduced Olympia and me to the direct rein, indirect rein, and half-halt through the rein. We had begun work on the shoulder-in and half-pass and by the end of the clinic I went from feeling defeating to feeling enlightened. It was hard to let go of my prior misconceptions but as my little 4yo Morgan began to glide across the ring in the most effortless shoulder-in I could no longer argue with Craig's logic.

In the months after my first clinic I began the same work with all my training horses and the changes were amazing! My hot horses became quiet, light and sensitive. My dull horses became forward and energetic. My walk scores went from 5's and 6's to 7's and 8's. Most importantly, my horses were happier than ever! I looked forward to this next clinic with eager anticipation of the even greater insight ahead... and

I am saving up all my pennies to go to Washington for an intensive, so prepare yourself Craig!
